Software Engineering Consultant (2025/06 - Present)

TypeScript | Next.js | React Native

Fly Fishing mobile app

- Monitor river conditions, local fish information, track and share your trip

Game Hosting web app

- Provision game servers with a few clicks + fine-grained infrastructure editing

Mountain Real Estate web app

- Filters and information specific to mountain living communities

Lumeris - Healthcare Technology (2022/01 - 2025/01)

AWS | IAC | TypeScript | NestJS | Angular | SvelteKit | Electron | Atlassian & Azure CI/CD | Scrum Team | Test Driven Development

Senior Software Engineer (2 years)

- Co-led AI value based care Windows application development - OCR + LLM via AWS Textract & Bedrock with embeddings stored in Pinecone vector database, confidence score calibration, and prompt engineering
- Created internal component library shared across SvelteKit / Electron / Vue
- Led development of internal ChatGPT with Azure OpenAI API
- Modernized customer support database dashboard
- Created internal RDS management dashboard
- Created IAC template for SvelteKit deployment on AWS Lambda / S3
- Led evaluation / overhaul of front-end tech stack from Angular to SvelteKit

Software Engineer (1 year)

- Prototype real-time analytics engine with on AWS Kinesis / Lambda / HealthLake - fully managed, HIPAA-eligible service that stores, transforms, and analyzes healthcare data using the Fast Healthcare Interoperability Resources (FHIR R4) standard
- Co-led AWS migration of primary analytics engine to AWS RDS
- Led AWS migration of public document service, 10000+ documents, setting the example for how to use AWS Lambda@Edge with CloudFront CDN

Freelance Full Stack Developer (2020/08 - 2021/12)

PaulitaCarlotta.com - paid work (not maintained by business owner)

JavaScript | Next.js | React.js | Node.js | REST API | BigCommerce API | Prismic CMS API

- E-commerce store for women's fashion / jewelry and lifestyle blog

untcsce.club - pro bono work for UNT Computer Science Club

TypeScript | Next.js | React.js | Node.js | Commerce.js | Stripe | Contentful CMS API

- Informational / marketing site with headless content management system

Projects

nasa-api-explorer.vercel.app - personal project

TypeScript | Next.js | React.js | Node.js | REST API | NASA API

- Search NASA's official database of over 140,000 photos of the universe
- Satellite imagery from Earth Polychromatic Imaging Camera and positional data calculated with J2000 coordinates, vector calculus, & trigonometry

zachscroggins.com - personal project

TypeScript | Next.js | React.js | Node.js | GitHub API

- Custom designed portfolio website showcasing my work and projects

Education

Computer Science Major (2021/01 - 2021/12)

University of North Texas - Denton, TX

- Web Development Officer of Computer Science Club
- CS II, Data Structures, Algorithms, Usability and UX

Computer Information Systems Major (2019/06 - 2020/12)

North Central Texas College - Corinth, TX

- CS I, OOP, Java, C#, LAMP Stack, Linux, Web Design, PC HW, Computer Networks, Computer Graphics, Digital Imaging

Industry Knowledge

Amazon Web Services
Large Language Models
Model Context Protocol
Infrastructure as Code
Healthcare Technology
Headless E-commerce
Content Management Systems
Content Delivery Networks
Serverless Computing

Artificial Intelligence

AWS Bedrock	OpenAI API
Claude Code	GitHub Copilot
Cline	LM Studio

Languages & Runtimes

JavaScript	**TypeScript**
HTML5	**CSS**
Node.js	Python
PHP	Java
C++	C#

Frameworks & Libraries

Next.js	**React.js**
NestJS	**Tailwind CSS**
SvelteKit	Angular
Vue	Electron
Playwright	Cypress
Vitest	Jest

Databases

AWS Athena	DocumentDB
PostgreSQL	Microsoft SQL

Tools & Technologies

REST API	GraphQL API
Git	GitHub
Linux	Docker
Vercel	Netlify

Design

UI Design	UX Design
Figma	Adobe XD
Illustrator	Photoshop
